No. QSD.2-6/2020-CSKHPKV (GA)/- 31562-651

Dated Palampur, the

25 JUN 2024

**CIRCULAR**

It has been noticed that drinking water is being misused by the residents of the University campus for kitchen gardening through loose PVC pipe or direct taps resulting draining of water tanks very shortly which needs more time for pumping which is causing extra load on pumping machinery. Sometimes due to voltage drops, water supply is also affecting in Hostels and residences of the University.

Due to continuous drought, discharge of pumps/tube wells has been decreasing continuously in the whole campus, as a consequence scarcity of water has been observed in the University by the students for irrigation of the trials/drinking water. It is therefore, enjoined upon all the concerned/residents to stop the practice of misusing the water and if anyone is found guilty, a strict action will be initiated against the defaulter.

All the Statutory Officers/HODs/Units/Offices/Scientist Incharge/Programme Coordinators are requested to bring it to the notice of all employees (Teaching/Non-Teaching) working under their control for strict compliance.

Registrar,  
CSKHPKV, Palampur.
