

## **International Continuing Education Project:**

As 'INDEPENDENT STUDY CENTRE (ISC)' of Charles Louis Davis DVM Foundation of USA. The ISC started its activities from July 2006. The Foundation is a donative publicly supported charity of USA for the International Advancement of Education in Veterinary and Comparative Pathology. The foundation has given the responsibility of Director of the Study Centre to Profesor Vipan K. Gupta and made him its Officer & Representative in India. This is the seventh Center outside USA.

The ISC is stocked with over 300 hours of illustrated lectures on (over 200 number) DVDs/CDs free of cost on pathology of diseases of diverse species of animals (a contribution of expert pathologists world over) for exposure to trainee students, faculty and scientists. Members of the foundation in the world, and pathologists and students all over India and can visit the centre for exposure to the diseases of animals. The [list of study material](#) is given here under and also available on the Foundation's website ([www.cldavis.org](http://www.cldavis.org)). The DVDs/CDs collection in ISC can be viewed by prior appointment with its Director ([gupta.vipankumar@gmail.com](mailto:gupta.vipankumar@gmail.com)).
